

Sailboat racing is an active, non-contact outdoors sport. The open-air nature of the venue and the constantly moving boats contribute to the safe aspects of the sport for all involved.

We believe that the sport of sailboat racing can be conducted in a safe manner with regards to COVID-19 by following these guidelines:

- Social Distancing between boats is currently accommodated by the nature of the sport. SSYC races are governed by the rules of *US Sailing* which prohibit boat-to-boat contact.
- All boats are to conform to guidelines issued by their own marina or launch site.
- The person in charge of each boat will assume responsibility for confirming that each person aboard has shown no signs of illness within the past 14 days and does not live with or had contact with any person who has had signs of illness for at least 14 days. Signs of illness can include cough, shortness of breath or trouble breathing; or at least two of the following: fever, chills, repeated shaking with chills, muscle pain, headache, sore throat, new loss of taste or smell.
- The person in charge shall be responsible for the cleanliness and sanitation of the boat prior to allowing persons on board.
- The person in charge will be responsible for providing soap and water and/or hand sanitizers to all persons on the boat.
- Face coverings will be required at all times for everyone on every boat.
- There will be no sharing of food or drink. Each person will be responsible for bringing their own food and drink.
- There will be no gatherings of any kind related to the race before, during, or after the races.
- **There will be no raft ups.**
